The Description of Layer & Parameter

PRODUCT PARAMETERS

Product parameters:

Model: PEMF CRYSTAL MAT

Heating area: Single heating area

Controller: Handheld controller Application: Wellness centres, Healing spaces, Home, Beauty salon, health management centres

Electric radiation: Low electric radiation

Heating element: Carbon fibre heating wire

Voltage: 100 -240V/50-60Hz

Power: 200W

Temperature setting: 25-75°C

Time setting: 1-9 hours

PEMF setting: 1-9 levels

Size: 190cm*80cm

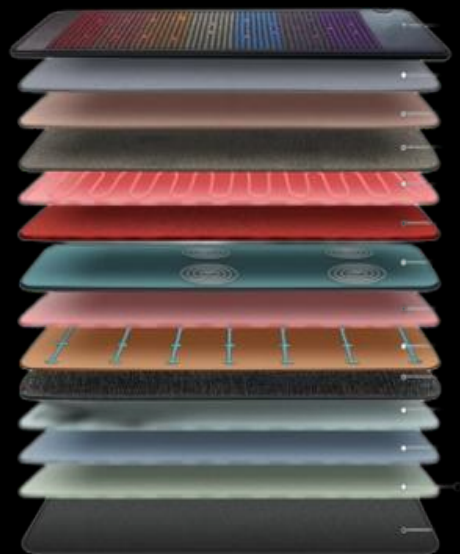

Net Weight: 15kg

Plug: CN, JP, US, EU, AU, UK, Za, It

PRODUCT MIX

Product mix:

Durable flame retardant PU leather

Solid net fabric

Healing Crystals layer

Waterproof layer

Low EMF carbon fibre Infrared heating wire

Over heating protection layer

Magnetic-iron PEMF core

Low EMF carbon fibre infrared heating wire

Hard flame retardant cotton

Mineral wool layer

Fiber aluminum IR reflecting layer

Thick compressed cotton layer

Waterproof coating

7 HEALING CRYSTALS

→ Amethyst assists with physical and emotional issues.

→ Sodalite brings emotional balance and enhances self-esteem.

→ Blue Lace Agate assists with verbal expression of thoughts and feelings.

→ Green Aventurine dissolves negative emotions and thoughts.

→ Yellow Aventurine helps focus intentions & provides ease in being yourself.

→ Carnelian promotes positive life choices and motivates for success.

→ Red Jasper brings insight into difficult situations and calms the emotions.

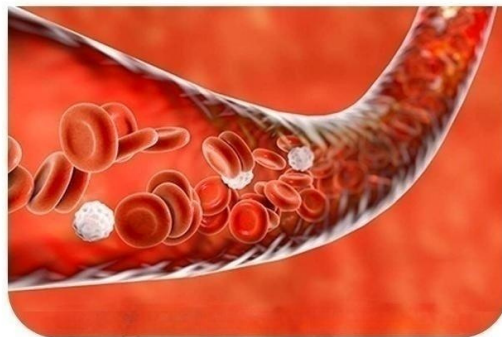

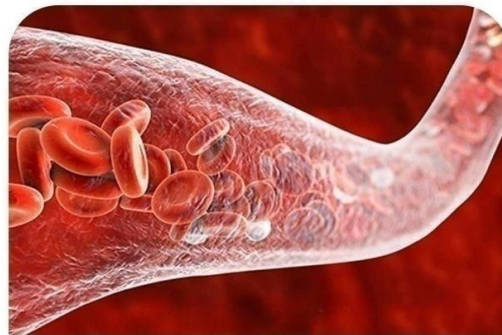

PEMF Crystal Mat Benefits & Core Tech

BENEFITS

- Increases body heat / Improves mood
- Improves cognitive ability / Enhances Exercise Performance & Speeds Recovery
- Detoxification & Beauty / Relieves chronic pain
- Improves blood circulation / Improves immunity

Promote blood circulation

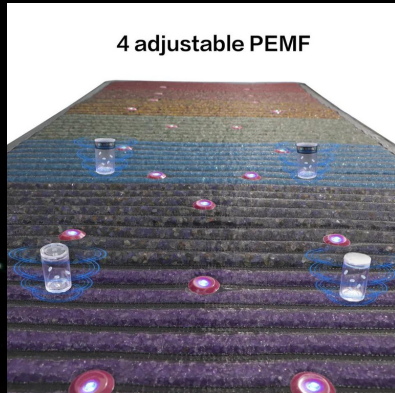

PEMF(PULSED ELECTROMAGNETIC FIELD)

PEMF therapy is a safe, non-invasive, and scientifically supported healing modality that energizes the body at a cellular level. By delivering low-frequency electromagnetic pulses, it stimulates natural cellular functions, enhances microcirculation, and helps restore the body's electrical balance.

This therapy supports the regeneration of damaged or injured cells, reduces inflammation, and alleviates pain in muscles, joints, and bones. It reactivates the mitochondria—the energy factories within cells—promoting faster healing and improved overall wellness.

PEMF works by inducing mild electrical currents in the body, restoring proper ion flow, and activating the body's natural repair processes. It's a natural and effective way to address cellular dysfunction and support long-term health.

PEMF Therapy

Potential Benefits of PEMF

4 PEMF chips
Adjustable from
1 to 9 levels

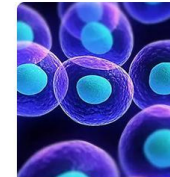

Improve sleeping

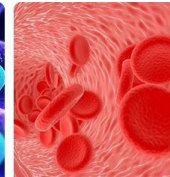

Relieve fatigue

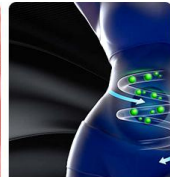

Stimulate
metabolism

Activate cells

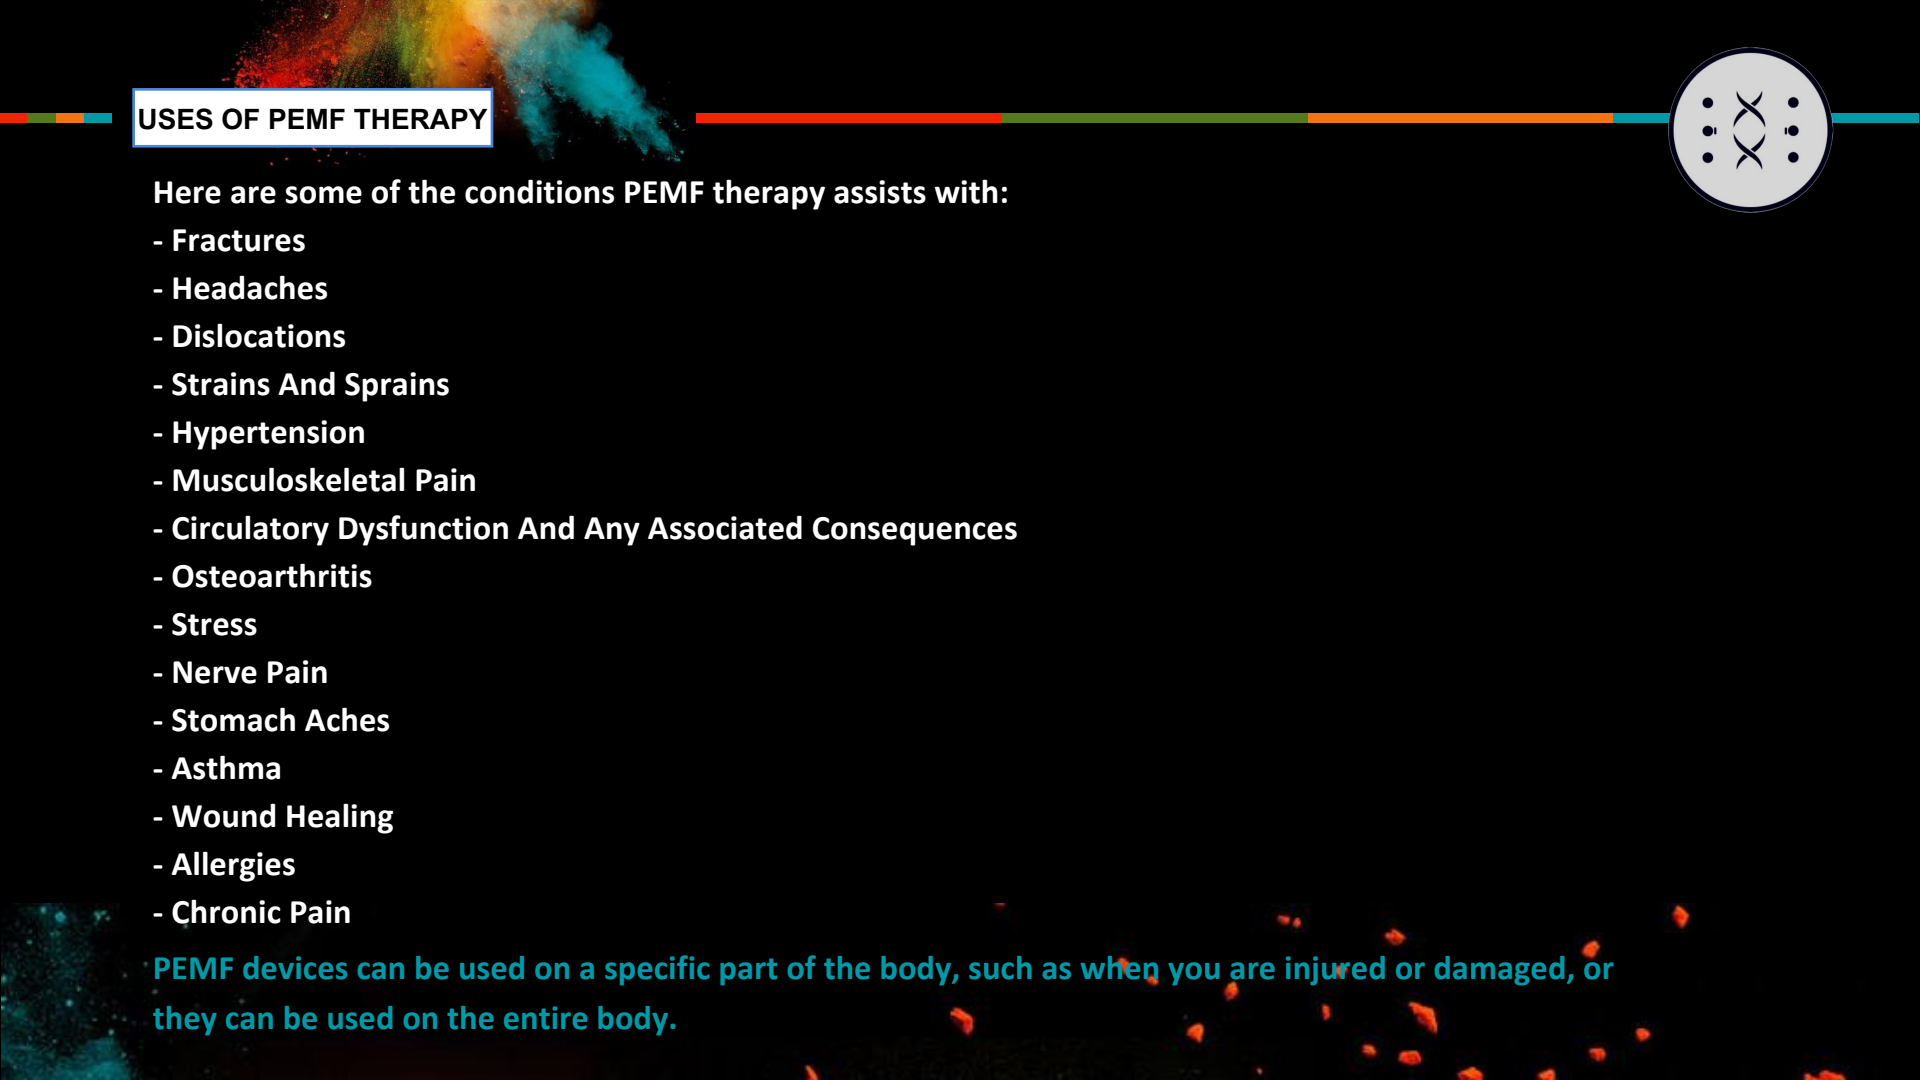

Improve blood
circulation

Help the body
detoxify

Improves blood circulation	/	Improves digestion
Improves sleep	/	Relieves allergies
Relieves pain and tension	/	Improves mood
Sharper cognitive function	/	Improves immunity
Improves excretion function		
Increases body energy		
Helps improve athletic performance and recovery		

USES OF PEMF THERAPY

Here are some of the conditions PEMF therapy assists with:

- Fractures
- Headaches
- Dislocations
- Strains And Sprains
- Hypertension
- Musculoskeletal Pain
- Circulatory Dysfunction And Any Associated Consequences
- Osteoarthritis
- Stress
- Nerve Pain
- Stomach Aches
- Asthma
- Wound Healing
- Allergies
- Chronic Pain

PEMF devices can be used on a specific part of the body, such as when you are injured or damaged, or they can be used on the entire body.

3 COLOR PHOTON LIGHT

▶ Blue Photon Light

Destroys *P. acnes* bacteria, minimises redness and irritation.

▶ Green Photon Light

Regulates melanin production, reduces pigmentation and calms redness.

▶ Red Photon Light

Boosts collagen production, restores cell function, and supplies essential energy for cellular renewal, nutrition and waste removal.

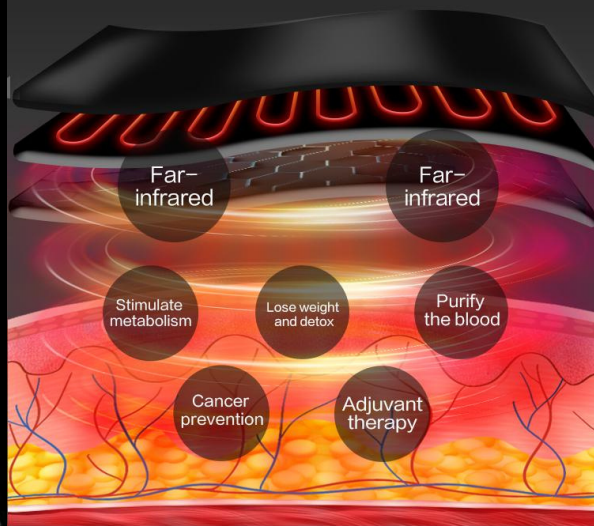

Photon therapy uses visible and infrared light to affect living tissues and organisms at a cellular level for positive therapeutic benefits. It is a simple, effective, non-drug alternative to medicine and this type of therapy is known to promote varying degrees of tissue healing and regeneration

FAR INFRARED

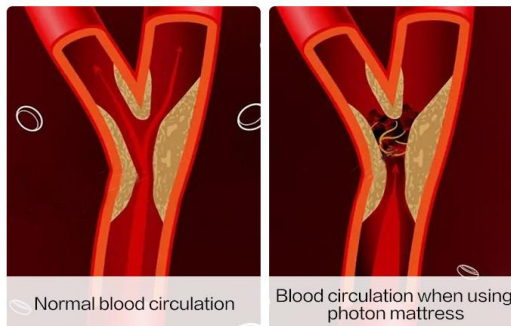

Far infrared wave

High-energy far-infrared heating, high-power products can quickly heat up, low EMF overall wiring without interfaces, intelligent temperature control to ensure safety

FAR INFRARED

Far Infrared heat can raise the body's internal temperature and effectively support detoxification, as it penetrates deep into tissues. This safe, natural, and comfortable therapy helps relieve pain, reduce inflammation and stiffness, and temporarily increase circulation. Far infrared rays can reach 4–6 inches into the body. The therapy also stimulates endorphin release, which is why you may feel lighter and more energized, similar to the effects of a good workout.

Far infrared therapy benefits:

Detox | Pain relief

Clear skin | Immune support

Reduces muscle tension | Relaxes body

Improves blood circulation | Loses weight

Controller & Package

PEMF Adjustable Controller

Operation process:

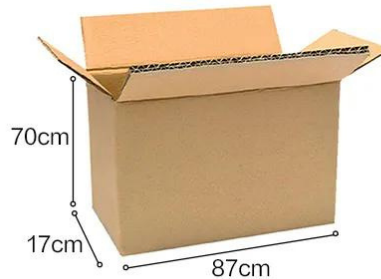

1. Connect the power supply, controller and mattress
2. Press the power switch
3. Press the photon light button to turn on the photon light
4. Press the PEMF button to turn on the PEMF function. Each time the PEMF button is pressed, the gear position increases by one. There are 1-9 gear positions.
5. The temperature button can be used to adjust the temperature. Each time you press the button, the temperature increases by 5 degrees Celsius, and each time you press the button, the temperature decreases by 1 degree Celsius. The temperature range is 25-75 degrees Celsius.
6. The time button can be used to adjust the time. Each time you press the button, the time increases by one hour, and each time you press the button, the time decreases by one hour.
7. After use, please turn off the power!

Note: The default time of PEMF function is 10 minutes. We recommend 10 minutes for the best use time of PEMF function.

PACKAGE

Product parameters

Product size: 190*80 cm

Packaging size: 87*70*17 cm

Net weight: 15.2 kg

Gross weight: 21 kg

Multi Country Plug Standard

More choices, More security

Notice

Suitable for the Following Conditions and Needs:

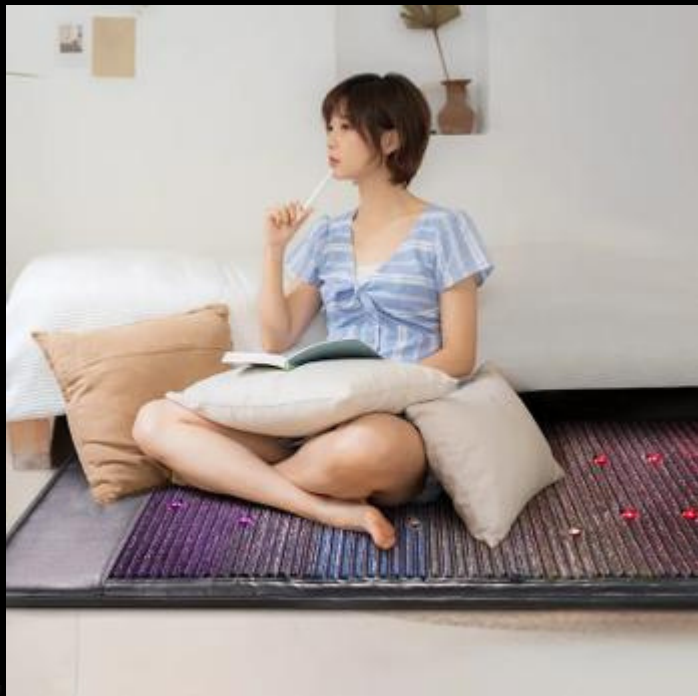

- **Support for improved excretion and detoxification**
- **Immune system enhancement**
- **Relief from muscle or joint pain**
- **Reduction of inflammation, swelling, and allergies**
- **Athletic performance and recovery improvement**
- **Support for psychological conditions such as brain fog**
- **Management of physical or emotional stress**
- **Assistance with insomnia and sleep disturbances**
- **Aid for digestive issues**
- **Support for diagnosed conditions including ADHD, anxiety, emotional disorders, OCD, parasitic infections, mold exposure, and Lyme disease**
- **Relief from neurological symptoms such as numbness, tingling, or limb buzzing**
- **Improvement for poor circulation, including cold hands and feet**

Not Suitable For:

Although this product is safe for most people, certain individuals should seek medical advice before use. This includes pregnant women, patients recovering from recent surgery or suture removal, those with severe cardiovascular or heart conditions, as well as infants and young children.

Precautions

- Always place the mattress on a flat surface such as the floor, tabletop, or bed.
- When storing, avoid curling the back of the mattress; instead, gently roll it towards the front.
- Turn off the power after use and allow the mattress to cool before storing it properly.
- Do not immerse the mattress in water or use cleaning agents. Clean it gently with a towel.
- If the mattress temperature exceeds 60°C, limit usage to a maximum of 90 minutes.
- Do not use the mattress while naked or wearing thick clothing.

Thank You!
